POLICY—

Our policy is to furnish stock fully graded and properly named. Any deviation from this plan will be accidental and we assume no responsibility greater than the invoice of the stock involved.

TERMS—

ALL SALES ARE STRICTLY CASH with the one exception to those whose credit has been established in past years. Nursery supplies are net cash to everyone. Open account sales, Net 30 days.

TAGGING AND CHECKING: An extra charge of 10% will be made when customers select their plants in the fields, or if we tag nursery stock for our customers for any reason. Increased labor costs make this charge necessary.

CLAIMS—

Our responsibility for condition of plants being shipped ends when we make delivery in good order to the transporting companies. Damages inflicted thereafter are to be taken up with the carrier. We will assist when we can help in settling such problems.

Claims for quality of stock must be made within 10 days after date of invoice. **LATE CLAIMS WILL NOT BE CONSIDERED.**

PACKING CHARGES AND TRUCK DELIVERIES

Baling, boxing or crating for local freight or express shipments will be charged at cost. No charges are made for bulk truck or car loading.

Deliveries to customers in Dallas on invoices of \$50.00 or over will be made on our truck at F.O.B. Dallas Warehouse prices.

To other destinations where two or more orders are delivered in the same load each customer will be charged proportionately as to mileage and size of his order.

—Delivery Charges Payable at Time of Delivery—

ORDERS—

All orders are accepted with the understanding that we are not to be held liable in event of accident, extremities of weather or other causes beyond our control.

Liners in Pots weigh approximately 25 lbs. per 100 plants. They are grown in Michigan Peat.

SOUTHLAND NURSERY SHADING

Manufactured Especially for Nurseries

Desiring the Proper Amount of Controlled Shade

Ordinary snow fence provides 40 to 50% shade. Our special wood and wire shading consisting of a wider, thinner, ($\frac{3}{8}$ inch by $2\frac{1}{4}$ inch slat) spaced $1\frac{3}{4}$ inches apart provides 20% more shade with a better distribution of weight per square foot.

WE MANUFACTURE WHAT YOU, THE NURSERYMEN, DESIRE AS A LATH HOUSE COVER; GOOD SMOOTH SAWN, YELLOW PINE LATH (THE STRONGEST OF THE SOFT WOODS) WOVEN TOGETHER WITH HEAVY GALVANIZED WIRE AND

DIPPED IN A 5% PENTA SOLUTION TO MAKE IT LAST FOR MANY YEARS, PLUS A RED OR GREEN OIL BASE SHINGLE STAIN, IF COLORED SHADING MATERIAL IS DESIRED.

It is stronger than other types of shading material, costs less than most and can be installed by unskilled, inexperienced labor. Once erected, it's strong enough to walk on and rugged enough to withstand rough weather conditions, such as high winds, sleet, ice, snow and hail.

PLANT GROWTH STIMULATOR

- Increase Growth
- Speed Germination
- Induce Flowering
- Break Dormancy

Plants grow faster, mature earlier—greatly increases size and bulk; produces heavier blooms and higher yields. Flowering time is advanced on certain plants and dormancy is broken in seeds with use of this stimulator.

Application to the foliage as a spray is the most convenient and economical method. One spray application is often sufficient to get results.

MODEL "A" GRINDER AND SHREDDER

**ESPECIALLY DESIGNED FOR HOME GARDENERS,
GREENHOUSES AND SMALL OPERATORS!**

Here's the latest development in compost grinding and soil shredding equipment. It's the all new W-W Model A, which is especially designed for the home gardener and small operator who demand the superior grinding and shredding for which W-W units are famous . . . yet who don't require the capacity that is available in the W-W

larger models. It is available in either gas or electric models. This low-cost machine has shredding bars and grinding screen which are inter-changeable. Some organic materials must be ground, yet most other matter should be shredded. Only W-W lets you do both!

Here's the machine that has the price you desire . . . yet no sacrifice has been made in quality.

and hook easily gets into those hard to prune places. Bring on the tough trimming tasks and make light work of it with No. 80. Neoprene handles are easy on the hands; rubber bumper prevents pinching of the hand and acts as a shock absorber. No. 80 is the newest tool to hit the market for the professional user. Modeled after the famous Swiss-German pattern. Overall length, 8 $\frac{7}{8}$ inches.

Weight each—1 lb.
